Engage with your peers in our [Proven Professional Community](#).

Achievement Overview

The VCF 5 on VxRail Implementation and Upgrade achievement focuses on the topics of deploying all components that make up a VCF on VxRail environment: Management Domain, NSX Edge Clusters, and VI Workload Domain. It also covers expanding Management Domains with Stretch Clusters, adding additional clusters to a VI Workload Domain, and upgrading to VCF 5. Individuals attaining the achievement are on their way to work with VCF on VxRail in a variety of environments.

Achievement Requirements

To complete the requirements for this achievement you must:

1. Pass the following achievement assessment on or after August 18, 2024
